

Small Landowners and Eco-System Services

Northwest Natural Resource Group
promoting a sustainable environmentally sound economy for multiple generations

Our Mission

...innovative forest
management ...

...healthy
ecosystems...

...economic
development...

...rural communities

...who we support through our work

Pacific
NW
forests...

It is imperative to maintain portions of the wilderness ...[so that] moderns may at least see what their ancestors knew in their nerves and blood.

~Bernard De Voto, Fortune, June 1947

Member Services

Our
work
helps
SFLO...

- Learn more about ecological forestry practices
- Access FSC Markets (wood)
 - Certification
 - Market Development
- Prepare for the emerging Ecosystem Service Markets (water quality, carbon offset, bio-diversity)
- Advocacy

In the long-term, economic sustainability depends on ecological sustainability. – Pew Report, 2003

Current and developing activities

- Development of Forest management and monitoring protocol templates
- Forest Stewardship Subsidies for membership in the FSC
- Working with OSU to develop water quality credits for forestry
- Developing carbon accounting protocols for small forest landowners
